

HELPING PATIENTS

GET SUPPORT THEY NEED

Hillrom's Patient Financial Assistance Program

We understand every patient's financial situation is unique, that's why we are pleased to offer our Patient Assistance Program. It's designed to help patients gain access to the respiratory care products they need.

Our team of financial assistance experts will work with eligible patients and their caregivers to determine what assistance may be available. Hillrom is committed to helping patients receive the therapy they need.

1

INITIATION

A patient facing cost concerns is encouraged to contact the Patient Financial Assistance Program at 1-844-732-2778.

2

APPLICATION

After the initial call, we will provide the patient with information about the program and give them an application form. The application process has been designed to treat patients respectfully and confidentially. Financial information will only be used to determine whether a patient qualifies for assistance.

Patients will need a validation of income, such as a copy of their most recent tax return and parental information is required if the patient is a minor.

3

REVIEW

Once a completed application is submitted, we will assess based on the individuals' needs and the respiratory health product. The team will determine if the patient meets the criteria for assistance. Generally, a review is provided within 30 days.
